Notes to Editors

MYCELX is a revolutionary oil-free water technology company solving the world's toughest oil removal problems in the oil and gas industry. The systems are based upon scientific breakthrough for a completely different approach to permanent oil removal. The Company created the patented MYCELX polymer using innovative molecular cohesion for removing oil from water far beyond what conventional systems have ever achieved. MYCELX systems remove oil to critically low levels in a much smaller physical footprint than conventional systems and in a virtually fail-safe process.
